Damage	4d6 melee	4d6+Xd6 melee	None	10d6+mod channel	7d10+mod ranged
Range	Melee	Melee	Melee	30 ft burst	800+ ft
Defense	Null Zone, SR	Frenzy stacks	Intercept/Reflect	Field healing/ bleed	Long range
Special	Supreme Null Zone	Void Smite nova	Guardian Bonds	Condition control	AoE/Multi- target
Skills	6+Int	6+Int	6+Int	4+Int	6+Int
Best Aspects	Any	WIS/CHA/INT	WIS/CHA	Any (uses Aspect!)	INT/WIS

ARCHETYPE 1: VOID REAVER

"I don't just counter your magic—I make you pay for casting it."

Role: Glass Cannon Striker

Playstyle: Aggressive, high-risk/high-reward burst damage specialist

Identity: Channel void energy into devastating smite attacks while building attack/damage bonuses through successful counters

VOID ASPECT RECOMMENDATIONS

The Void Reaver excels with any mental stat, but each creates a different playstyle:

Wisdom (The Instinctive Hunter): *Most thematic* - Intuitive, predatory awareness of magic - Sense when spellcasters are vulnerable - React instantly to magical threats - High Will saves synergize with aggressive positioning - **Best for:** Traditional "void hunter" concept, reactive gameplay

Charisma (The Commanding Predator): *Most aggressive* - Impose your will on the battlefield through sheer force of personality - Dominate casters with intimidating presence - Better social skills for roleplay - Void Smite save DCs powered by commanding nature - **Best for:** Leadership builds, intimidation tactics, face characters

Intelligence (The Calculating Striker): *Most tactical* - Analyze magical patterns to exploit weaknesses - More skill points for battlefield awareness - Better Knowledge checks to identify caster capabilities - Precise, surgical application of Void Smite - **Best for:** Tactical players, skill-focused builds, min-maxers

Recommended Primary Stats: - **DEX-based TWF build:** DEX > void aspect > CON > STR - **STR-based build:** STR > void aspect > CON > DEX

CORE CHANGES

Hit Die: d8 (same as base)

BAB: Full (same as base)

Good Saves: Fort, Will (same as base)

Armor: Light, Medium, Shields (same as base)

Skill Ranks: 6 + Int per level

FEATURES LOST

- **Null Zone (all levels)** - No area protection
 - **Efficient Dispelling (7th)** - No bonus to dispel checks
 - **Efficient Saves (12th)** - No bonus saves vs spells
 - **Void Recovery (14th)** - No VP regeneration bonus
 - **Supreme Null Zone (15th)** - Loses this since no Null Zone
 - **Void Immunity (20th)** - No school immunity
-

NEW ARCHETYPE FEATURES

Void Smite (Supernatural) - 3rd Level

Replaces Null Zone

As a free action after confirming a hit while Void Strike is active, you can spend X VP (no maximum) to deal an additional +1d6 force damage per VP spent. The target must make a Fortitude save (DC 10 + $\frac{1}{2}$ your level + your **void aspect modifier**) or take full smite damage. On a successful save, the target takes half the smite damage.

Example: At 9th level with 14 VP, you confirm a critical hit. You spend all 14 VP on Void Smite for +14d6 force damage (avg 49) on top of your normal damage!

Tactical Use: Save VP for confirmed hits or criticals. Against bosses, this is your nova option.

Predatory Step (Supernatural) - 3rd Level

Part of replacing Null Zone

When you successfully counter a spell (not dispel), you may immediately use your Void Step ability toward the spell's point of origin as a free action. This does not cost VP and does not count against your limit of one Void Step per round. Its range is limited by your Void Step range.

Tactical Use: Counter an enemy spell, immediately close distance for melee. Perfect for hunting casters.

Disruptive (Bonus Feat) - 6th Level

You gain **Disruptive** as a bonus feat. You do not need to meet the normal prerequisites.

Disruptive: Your training in disrupting magic makes you a threat to spellcasters. Enemies provoke attacks of opportunity from you when they cast spells. The Spellcraft DC to cast defensively increases by +4 for enemies within your threatened area.

Tactical Synergy: Pairs perfectly with Predatory Step. Counter a spell → close distance for free → threaten their entire space next round.

Void Frenzy (Extraordinary) - 7th Level

Replaces Efficient Dispelling

Each time you successfully counter a spell with Reactive Counterspell, you gain a +1 bonus to attack rolls and a +1 bonus to damage rolls for 1 minute. These bonuses stack up to a maximum of +6/+6. Each bonus has its own independent 1-minute duration.

Example: You counter 3 spells in round 1 (+3/+3). Round 2 you counter 2 more (+5/+5). By round 3, you're at +6/+6 and staying there as long as you keep countering.

Tactical Use: In mage-heavy encounters, you become an absolute murder machine. Each counter makes you stronger.

Note: This only triggers on Reactive Counterspell, not Void Dispel.

Spellbreaker (Bonus Feat) - 11th Level

You gain **Spellbreaker** as a bonus feat. You do not need to meet the normal prerequisites.

Spellbreaker: When an enemy fails to cast defensively within your threatened area, they provoke an attack of opportunity from you.

Tactical Synergy: With Disruptive forcing +4 DC to cast defensively and your high BAB giving you three attacks, you're forcing casters into impossible choices. Free damage on failed casts!

Cascade of Negation (Supernatural) - 17th Level

Gained alongside Void Clarity

Once per day, when you counter or dispel a spell of 4th level or higher, you may immediately attempt a dispel check against all magical effects on all creatures within 30 feet of you. Make a separate dispel check for each effect. This ability costs no VP.

Tactical Use: Pop this in the middle of a heavily-buffed enemy group. One counter becomes a mass dispel that strips everyone.

Void Perfection - Reaver's Fury (Supernatural) - 20th Level

Modifies Void Perfection

Your Void Strike becomes permanent (0 VP). When you counter or dispel a spell of 6th level or higher with Reactive Counterspell or Void Dispel, you regain twice the spell's level in VP (instead of the normal spell level + 1 from Void Recovery).

Reaver's Fury: Your Void Frenzy maximum increases to +10/+10. Enemies within 50 feet of you must succeed on a concentration check (DC 18 + spell level) to cast spells.

Additionally, you gain the standard Void Perfection benefits: - Your type changes to Outsider (native) - You gain darkvision 60 feet (or extend existing darkvision by 60 feet) - You no longer need to eat, drink, or breathe (but must still sleep to regain VP)

ARCHETYPE 2: VOID GUARDIAN

"You want to hurt my friends? You'll have to get through me first."

Role: Ultimate Tank/Protector

Playstyle: Defensive, protective, bond-based guardian

Identity: Shield allies from magic, redirect damage, create protective zones

VOID ASPECT RECOMMENDATIONS

The Void Guardian excels with any mental stat, but each creates a different guardian identity:

Wisdom (The Centered Protector): *Most thematic* - Serene, aware defender who senses threats before they manifest - Guardian's Bond strengthened by spiritual awareness - Calm under pressure, meditative protection - **Best for:** Traditional "guardian" concept, reactive defense, balanced builds

Charisma (The Inspiring Shield): *Most social* - Protective presence that rallies and emboldens allies - Guardian's Bond represents deep personal connection - Better social skills for leadership role - **Best for:** Party leaders, social campaigns, diplomatic protectors

Intelligence (The Strategic Guardian): *Most tactical* - Calculated protection, analyzing threats to optimize defense - Guardian's Bond chosen through tactical assessment - More skill points for battlefield awareness - **Best for:** Tactical players, party strategists, analytical defenders

Recommended Primary Stats: - **All builds:** void aspect > CON > STR > DEX - Constitution keeps you alive (d10 + high CON = massive HP) - Strength for Guardian Intercept melee attacks if needed - Don't ignore DEX entirely (Initiative, Reflex saves)

CORE CHANGES

Hit Die: d10 (upgraded from d8!)

BAB: Full (same as base)

Good Saves: Fort, Will (same as base)

Armor: Light, Medium, Heavy, Shields (gains heavy armor!)

Skill Ranks: 6 + Int per level

FEATURES LOST

- **Void Strike (all levels)** - No offensive strike capability
 - **Efficient Dispelling (7th)** - No bonus to dispel checks
 - **Efficient Saves (12th)** - No bonus saves vs spells (but allies get them!)
 - **Greater Void Strike (13th)** - Modified version
 - **Void Recovery (14th)** - No VP regeneration bonus
 - **Supreme Null Zone (15th)** - Modified version
 - **Void Immunity (20th)** - Modified capstone
-

NEW ARCHETYPE FEATURES

Guardian's Bond (Supernatural) - 1st Level

Replaces Void Strike

As a standard action, you can form a protective bond with a number of willing allies equal to your void aspect modifier. These bonds last until dismissed (free action) or until you form new bonds.

Bonded Ally Benefits: - Allies within 30 feet of you gain a +2 deflection bonus to AC - Allies within 30 feet of you gain a +2 morale bonus on saving throws - You always know the direction and approximate distance to bonded allies - You gain an insight bonus on Perception checks equal to the number of bonded allies (max +4)

At 5th level: Range increases to 60 feet

At 10th level: Deflection bonus increases to +4, morale bonus increases to +4

At 15th level: Range increases to 100 feet

At 20th level: Deflection bonus increases to +6, morale bonus increases to +6

You become the center of your party's defense, a living shield for those you protect.

Guardian Intercept (Supernatural) - 3rd Level

Replaces Null Zone

As an immediate action, when a bonded ally within 30 feet is hit by an attack, spell, or effect that requires a saving throw, you can spend 2 VP to become the target instead. The attack or effect targets you as if you were the original target, using your AC, saving throws, and defenses.

If the redirected effect deals damage, you can choose to split the damage equally between yourself and the original target (round down). This does not cost additional VP.

At 9th level: Guardian Intercept costs only 1 VP

At 15th level: Guardian Intercept range increases to 60 feet

Tactical Use: Save squishy allies from death. Take the hit meant for your wizard. Be the wall.

Void Reflection (Supernatural) - 3rd Level

Gained alongside Guardian Intercept

When you successfully counter a spell with Reactive Counterspell, you can spend an additional 2 VP (total 3: 1 to counter + 2 to reflect) to redirect the spell to target one or more bonded allies within range. The spell functions as if you had cast it, but uses your void aspect modifier for any DCs and your class level as the caster level.

The spell must be beneficial (healing, buffs, utility) to redirect to allies. You cannot redirect harmful spells to enemies using this ability.

Tactical Use: Counter an enemy's *haste* or *cure serious wounds*, redirect it to buff your own party instead!

Disruptive (Bonus Feat) - 6th Level

You gain **Disruptive** as a bonus feat. You do not need to meet the normal prerequisites.

Disruptive: Your training in disrupting magic makes you a threat to spellcasters. Enemies provoke attacks of opportunity from you when they cast spells. The Spellcraft DC to cast defensively increases by +4 for enemies within your threatened area.

Tactical Synergy: Protects your bonded allies by making nearby casters think twice. Combined with Guardian Intercept, you control the magical battlefield.

Sheltering Void (Supernatural) - 7th Level

Replaces Efficient Dispelling

As a standard action, you can spend 4 VP to create a protective bubble of void energy with a 10-foot radius centered on yourself. This bubble lasts for 1 minute and moves with you.

The bubble provides: - **Hardness 10** against all damage from outside the bubble - **40 temporary HP** shared among all creatures inside (assign freely when damage is taken) - **Fast Healing 2** for all allies inside the bubble

At 14th level: Hardness 20, 40 HP, Fast Healing 4

At 17th level: Hardness 30, 60 HP, Fast Healing 6

At 20th level: Hardness 40, 80 HP, Fast Healing 8

Tactical Use: Deploy when party needs to survive massive damage or recover. The Fast Healing sustains the party through prolonged fights.

Spellbreaker (Bonus Feat) - 11th Level

You gain **Spellbreaker** as a bonus feat. You do not need to meet the normal prerequisites.

Spellbreaker: When an enemy fails to cast defensively within your threatened area, they provoke an attack of opportunity from you.

Tactical Synergy: Punishes failed defensive casting while preserving VP for Guardian Intercept and Sheltering Void. You become an impassable wall between casters and your allies.

Greater Void Strike (Supernatural) - 13th Level

Modified Version

When you successfully counter or dispel a spell while adjacent to an enemy, you can spend 2 VP as a free action to make a single melee attack against that enemy with a +4 bonus to hit. This attack does not benefit from Void Strike damage (you don't have that ability), but on a hit, you attempt to dispel one magical effect on that creature.

Void Perfection - Guardian's Aegis (Supernatural) - 20th Level

Modifies Void Perfection

Your Guardian's Bond now affects up to 4 allies simultaneously at no VP cost. When you counter or dispel a spell of 6th level or higher, you regain twice the spell's level in VP.

Guardian's Aegis: All allies within your Null Zone (50 ft) gain Fast Healing equal to your void aspect modifier. Enemies within 50 feet of you must succeed on a concentration check (DC 18 + spell level) to cast spells.

Supreme Null Zone Enhancement: You can use Supreme Null Zone twice per day, and it costs 0 VP to activate.

Additionally, you gain the standard Void Perfection benefits: - Your type changes to Outsider (native) - You gain darkvision 60 feet (or extend existing darkvision by 60 feet) - You no longer need to eat, drink, or breathe (but must still sleep to regain VP)

ARCHETYPE 3: VOID CHANNELER

“The void doesn’t just destroy—it can restore balance, or accelerate entropy.”

Role: Versatile Support/Blaster (Path-Dependent)

Playstyle: AoE healing OR damage specialist with condition control

Identity: Channel void energy in bursts to heal allies and remove conditions OR damage enemies and inflict debuffs

VOID ASPECT RECOMMENDATIONS

The Void Channeler is UNIQUE among void knight archetypes—**any mental stat works equally well** because channeling uses your void aspect modifier directly!

Wisdom (The Compassionate/Natural Channeler): *Most thematic* - Spiritual awareness and empathic connection to allies (Syntropy) - OR intuitive sense of weak points and decay (Entropy) - High Will saves protect the channeler - Perception bonuses help notice who needs healing/targeting - **Best for:** Traditional healer/support concept, reactive gameplay

Charisma (The Inspiring/Commanding Channeler): *Most social* - Healing through force of personality and encouraging presence (Syntropy) - OR overwhelming enemies with sheer destructive will (Entropy) - Better social skills for party face role - Leadership-oriented character - **Best for:** Party leaders, social campaigns, dramatic channelers

Intelligence (The Clinical/Analytical Channeler): *Most tactical* - Calculated approach to triage and condition removal (Syntropy) - OR precise targeting of enemy weaknesses (Entropy) - More skill points (5+Int, giving you flexibility for Knowledge skills) - Understand the “science” of void channeling - **Best for:** Tactical support, skill-focused builds, scholarly characters

Recommended Primary Stats: - **All builds:** void aspect > CON > DEX/STR (depends on melee vs ranged focus) - You still have full BAB, so you can contribute in combat - Constitution keeps you alive to keep channeling - DEX helps with Initiative and defensive positioning

CORE CHANGES

Hit Die: d8 (same as base)

BAB: 3/4 (reduced from Full!)

Good Saves: Fort, Will (same as base)

Armor: Light, Medium, Shields (same as base)

Weapons: Simple only (loses martial weapon proficiency!)

Skill Ranks: 4 + Int per level (reduced from 6!)

Bonus Feat: Selective Channeling at 1st level

Note: Void Channeler uses 3/4 BAB progression like Cleric/Warpriest. See table below for exact BAB values.

BAB PROGRESSION TABLE - VOID CHANNELER

Level	BAB	Level	BAB	Level	BAB	Level	BAB
1	+0	6	+4	11	+8/+3	16	+12/+7/+2
2	+1	7	+5	12	+9/+4	17	+12/+7/+2
3	+2	8	+6/+1	13	+9/+4	18	+13/+8/+3
4	+3	9	+6/+1	14	+10/+5	19	+14/+9/+4
5	+3	10	+7/+2	15	+11/+6/+1	20	+15/+10/+5

FEATURES LOST

From Base Class: - **Full BAB** → 3/4 BAB (like Cleric/Warpriest) -

Martial Weapon Proficiency → Simple weapons only - **Void Strike**

(all levels) - No offensive strike (replaced with Void Touch and

Channel Syntropy/Entropy) - **Disruptive (6th)** - No bonus feat

(replaced with Adaptive Channel) - **Efficient Dispelling (7th)** - No

dispel bonus (replaced with Enhanced Channels) - **Spellbreaker**

(11th) - No bonus feat (replaced with Adaptive Null Field) - **Efficient**

Saves (12th) - No save bonus - **Greater Void Strike (13th)** - No

auto-dispel (replaced with Greater Purging/Volatile Touch) - **Void Recovery (14th)** - No VP regeneration - **Supreme Null Zone (15th)** - No antimagic field - **Void Immunity (20th)** - No school immunity (replaced with Perfect Channeling)

Total Lost: Reduced BAB progression, martial weapons, 2 bonus feats, and 7 class features

NEW ARCHETYPE FEATURES

Selective Channeling (Bonus Feat) - 1st Level

Gained at 1st level

You gain **Selective Channeling** as a bonus feat. When you use Channel Syntropy or Channel Entropy, you can choose a number of targets equal to your void aspect modifier to exclude from the effect.

This allows precise healing without affecting enemies, or precise damage without hitting allies caught in the blast.

Void Touch (Supernatural) - 1st Level

Replaces Void Strike

As a swift action, you can spend **1 VP** to channel void energy into your touch for 1 minute. Choose your path (matching your Channel choice):

Void Touch - Syntropy (Restoration Path): - Melee touch attack (automatically hits willing targets) - Heals 1d8 + Void Aspect modifier - Works on living, undead, constructs (Will save negates for unwilling undead)

Void Touch - Entropy (Entropy Path): - Melee touch attack against AC - Damages 1d8 + Void Aspect modifier - Works on living, undead, constructs equally (no save, just touch AC)

Scaling: +1d8 every 4 levels - **1st-4th level:** 1d8 + void aspect modifier - **5th-8th level:** 2d8 + void aspect modifier - **9th-12th level:** 3d8 + void aspect modifier - **13th-16th level:** 4d8 + void aspect modifier - **17th-20th level:** 5d8 + void aspect modifier

At 7th level: Enhanced Channels also applies to Void Touch (add void aspect modifier to healing/damage)

At 9th level: True Channeler also applies to Void Touch (reroll 1s on damage/healing dice)

At 15th level: Activating Void Touch becomes a **free action**.

Your touch channels void energy with precision, restoring balance or accelerating decay.

Channel Syntropy/Entropy (Supernatural) - 1st Level

Replaces Void Strike

Choose your path at 1st level (this choice is **permanent**):

Channel Syntropy (Restoration Path): - Heals 1d6, scaling +1d6 every 2 levels (max 10d6 at 19th) - 30-ft radius burst centered on self - **Uses per day:** 3 + Void Aspect modifier - Affects living, undead, constructs equally - Will save negates (unwilling targets only)

Channel Entropy (Entropy Path): - Damages 1d6, scaling +1d6 every 2 levels (max 10d6 at 19th) - 30-ft radius burst centered on self - **Uses per day:** 3 + Void Aspect modifier - Affects living, undead, constructs equally - Will save for half damage

Feat Compatibility: All channeling feats work (Extra Channel, Improved Channel, Versatile Channeler, etc.)

DC: 10 + 1/2 level + Void Aspect modifier

The void responds to your will, either restoring harmony or accelerating decay.

Syntropic/Entropic Field (Supernatural) - 3rd Level

Modifies Null Zone

When you activate Null Zone (1 VP, swift action, 1 minute duration from base class), you can designate a number of creatures within the field equal to your Void Aspect modifier to be affected by your chosen field type. At 3rd level, your field type matches your chosen path (Syntropy or Entropy). At 11th level, you gain the ability to choose which field type to use each time you activate Null Zone.

Syntropic Field (Restoration Path): - Designated creatures heal **1d4 HP** at the start of their turn - Fortitude save (DC 10 + 1/2 level + Void Aspect mod) negates for 1 round (if unwilling) - **Scaling:** +1d4 every 6 levels (2d4 at 9th, 3d4 at 15th)

Entropic Field (Entropy Path): - Designated creatures take **1d4 bleed damage** at the start of their turn - Fortitude save (DC 10 + 1/2 level + Void Aspect mod) negates for 1 round - Bleed can be stopped by magical healing or DC 15 Heal check - **Scaling:** +1d4 every 6 levels (2d4 at 9th, 3d4 at 15th)

Cost Efficiency: For just 1 VP, you get BOTH the standard Null Zone benefits (+4 saves vs spells for all allies) AND ongoing healing/damage every round for 10 rounds. This is exceptional value!

Your Null Zone becomes more than mere suppression—it actively restores or erodes those within.

Purging/Volatile Touch (Supernatural) - 3rd Level

Gained at 3rd level

Cost: 1 VP per creature (maximum creatures = Void Aspect modifier)

Trigger: When you use Channel Syntropy/Entropy

You can enhance your channeling to remove or inflict conditions. For each VP spent, choose one creature affected by your channel and remove (Syntropy) or inflict (Entropy) one condition from the appropriate tier. **You can only target each creature once per channel use.**

Purging Touch (Syntropy): Remove conditions from allies

Volatile Touch (Entropy): Inflict conditions on enemies (Fort save negates, DC 10 + 1/2 level + Void Aspect mod, duration 1 round/level)

Available Conditions by Level:

Level	Tier	Conditions Available
3rd	1	Fatigued, shaken, sickened
6th	2	Dazed, diseased, staggered
9th	3	Cursed, exhausted, frightened, nauseated, poisoned
12th	4	Blinded, deafened, paralyzed, stunned
15th	5	Confused, feeble-minded, insanity
18th	6	ANY magical condition (including petrification, energy drain); Syntropy can resurrect creatures slain within 1 minute and restore to full health

Example at 9th level with +4 Void Aspect: - Use Channel Syntropy (heals 5d6) - Spend 3 VP to target 3 different allies - Remove one condition from each (choosing from tiers 1-3) - Total cost: 3 VP, affects up to 3 creatures

Each level expands your available options. At 12th level, you can remove any of the 13 conditions from tiers 1-4, choosing the right one for each situation.

Adaptive Channel (Supernatural) - 6th Level

Replaces Disruptive (bonus feat)

Your mastery of void energy allows you to channel either Syntropy or Entropy regardless of your original path choice. When you use Channel Syntropy/Entropy or Void Touch, you can choose to heal (Syntropy) or harm (Entropy), decided each time you use the ability.

Flexibility: - Channel: Choose Syntropy (healing) OR Entropy (damage) each use - **Void Touch:** Choose Syntropy (healing) OR Entropy (damage) each use - **Uses the same daily pool** (still 3 + Void Aspect modifier channels/day) - **Same VP cost** for Void Touch (1 VP)

Example at 9th level (originally chose Entropy path): - Round 1: Channel **Entropy** (damage enemies 5d6+8) - Round 2: Channel **Syntropy** (heal allies 5d6+8) - Round 3: Void Touch **Syntropy** (heal specific ally 3d8+8) - Round 4: Void Touch **Entropy** (finish off enemy 3d8+8)

Note: Your Syntropic/Entropic Field remains locked to your original path choice until 11th level when you gain Adaptive Null Field.

You have transcended the limitations of a single path, wielding both creation and destruction with equal skill.

Enhanced Channels (Supernatural) - 7th Level

Replaces Efficient Dispelling

Add your **Void Aspect modifier** to all healing or damage from Channel Syntropy/Entropy AND Void Touch.

Example at 7th level with +4 Void Aspect: - **Channel Syntropy:** 4d6+4 healing (avg 18) - **Channel Entropy:** 4d6+4 damage (avg 18) - **Void Touch Syntropy:** 2d8+4 healing (avg 13) - **Void Touch Entropy:** 2d8+4 damage (avg 13)

This bonus applies to: - Channel Syntropy/Entropy base healing/damage - Void Touch healing/damage - **Does NOT apply to** Syntropic/Entropic Field (that's separate healing/bleed)

Your mastery of void energy allows you to channel more powerfully than ever before.

True Channeler (Supernatural) - 9th Level

Gained at 9th level

When you roll damage or healing for Channel Syntropy/Entropy OR Void Touch, you can **reroll any 1s**. You must take the second result, even if it's another 1.

Example (Channel): - Roll 5d6 for Channel Syntropy: results are 1, 3, 1, 5, 4 - Reroll the two 1s: get 4 and 2 - Final result: 4, 3, 2, 5, 4 = 18 + Void Aspect mod

Example (Void Touch): - Roll 3d8 for Void Touch Entropy: results are 1, 6, 1 - Reroll the two 1s: get 5 and 3 - Final result: 5, 6, 3 = 14 + Void Aspect mod

This does NOT apply to: - Syntropic/Entropic Field healing/bleed - Purging/Volatile Touch effects

Your channeling becomes more consistent, more reliable—the void responds to your expertise.

Adaptive Null Field (Supernatural) - 11th Level

Replaces Spellbreaker (bonus feat)

Your mastery of the void is now complete. When you activate Null Zone, you can choose whether to create a Syntropic Field (healing) or Entropic Field (bleeding), regardless of your original path choice.

Field Selection: - When activating Null Zone (swift action, 1 VP) - Choose **Syntropic Field** (healing) OR **Entropic Field** (bleeding) - Decision made each time you activate Null Zone - Field lasts for the full Null Zone duration (1 minute at this level)

Complete Flexibility: - **Morning encounter:** Activate with Syntropic Field (heal allies 2d4/round) - **Afternoon encounter:** Activate with Entropic Field (bleed enemies 2d4/round) - **Same encounter:** Can have Syntropic Field active while channeling Entropy (or vice versa)

Example at 11th level: - **Swift:** Activate Null Zone with **Syntropic Field** (heal 8 allies 2d4/round) - **Standard:** Channel **Entropy** (damage enemies 6d6+6) - **Result:** Allies heal every round, enemies take burst damage - **Next activation:** Could choose Entropic Field instead for bleed damage

You are no longer bound by a single path—the void responds to your will completely.

Greater Purging/Volatile Touch (Supernatural) - 13th Level

Replaces Greater Void Strike

When using Purging/Volatile Touch, you can now remove or inflict **TWO conditions per VP spent** instead of one.

Example at 13th level with +5 Void Aspect: - Use Channel Entropy (damages 7d6+Enhanced+mod) - Spend 4 VP to target 4 different enemies - Inflict TWO conditions on each enemy (choosing from tiers 1-4) - Total: 8 conditions spread across 4 enemies

Maximum creatures affected: Still limited by Void Aspect modifier

Your mastery allows you to affect multiple aspects of a creature's state simultaneously.

Perfect Channeling (Supernatural) - 20th Level

Replaces Void Perfection

Once per day, you can maximize your Channel Syntropy/Entropy (treat all dice as maximum values).

Example at 20th level with +7 Void Aspect: - Normal: 10d6 + 7 (avg 42) - Maximized: 60 + 7 = 67 healing/damage

When maximized, Channel Syntropy/Entropy becomes a swift action (this swift action benefit only applies when using the 1/day maximized channel).

Additionally (both paths): - You gain standard Void Perfection benefits: - Type changes to Outsider (native) - Darkvision 60 ft (or extend existing by 60 ft) - No longer need to eat, drink, or breathe

Perfect Syntropy (Restoration Path): When you use your maximized channel, you can also use Purging Touch on all affected allies at no VP cost, removing one condition of your choice from each.

Perfect Entropy (Entropy Path): When you use your maximized channel, you can also use Volatile Touch on all affected enemies at no VP cost, inflicting one condition of your choice on each (they still get saves).

You have achieved perfect harmony with void energy—it flows through you like breathing.

ARCHETYPE 4: VOID WEAVER

"From a thousand feet away, I can end your spell before you finish the first syllable."

Role: Long-Range Artillery/Mystical Striker

Playstyle: Mobile glass cannon, extreme range, supernatural evasion, never in melee

Identity: Master ranged void energy projection, counter spells from incredible distances, phase through attacks with void awareness

VOID ASPECT RECOMMENDATIONS

The Void Weaver has clear preferences for mental stats:

Intelligence (The Analytical Sniper): *Most thematic* - Calculate trajectories, angles, and magical resonances - More skill points for Knowledge (arcana), Spellcraft - Precise targeting of ranged Void Strikes - Better dispel checks through understanding - Arcane Precision represents perfect calculation - **Best for:** Traditional "mage" concept, skill-focused builds, scholarly characters

Wisdom (The Perceptive Marksman): *Most aware* - Intuitive sense of where to aim - Void Bolt Mastery represents enlightened targeting - Perfect perception for long-range awareness - Arcane Precision as spiritual focus - **Best for:** Zen archer concept, reactive gameplay, perception-focused builds

Charisma (The Willful Blaster): *Least optimal but viable* - Command void energy through sheer force of will - Better social skills for non-combat situations - Dramatic, forceful manifestation of power - **Best for:** Roleplay-heavy campaigns, social characters, dramatic blasters

Recommended Primary Stats: - Best: INT or WIS > DEX > CON - Intelligence gives more skills, better Knowledge checks - Wisdom gives better Perception (critical at long range) - DEX for AC (you have no armor) and improves Evasion - CON for survivability (you need every HP with d8 HD!)

CORE CHANGES

Hit Die: d8 (upgraded from d6!)

BAB: Full (upgraded from 3/4!)

Good Saves: Fort, Will (Fort upgraded from poor!)

Poor Save: Reflex (but Evasion/Improved Evasion compensate!)

Armor: None (loses all armor proficiency!)

Weapons: Simple weapons + crossbows only

Skill Ranks: 6 + Int per level

Note: Void Weaver uses the same BAB and save progression as the base class (Full BAB, Fort/Will good), so no separate progression table is needed.

FEATURES LOST

- **All Armor Proficiency** - Cannot wear armor at all
 - **Null Zone (all levels)** - No area protection
 - **Efficient Dispelling (7th)** - No dispel bonus
 - **Efficient Saves (12th)** - No save bonus
 - **Void Recovery (14th)** - No VP regen
 - **Supreme Null Zone (15th)** - No antimagic field
 - **Void Immunity (20th)** - No school immunity
-

NEW ARCHETYPE FEATURES

Void Strike - Ranged (Supernatural) - 1st Level

Modifies Void Strike

Your Void Strike no longer requires weapons. Instead, you manifest void energy directly, which you can project as ranged attacks. While Void Strike is active, you may apply its bonus damage to any ranged weapon attacks or thrown weapon attacks. You also gain access to **Void Bolt**.

Void Bolt: As a ranged action, you may project a bolt of pure void energy as a ranged touch attack with a medium range (100ft. + 10ft./level). Use your void aspect modifier as your attack bonus instead of Dexterity. On a hit, deal your Void Strike damage plus your void aspect modifier.

Damage: Void Strike and Void Bolt use d10s instead of d6s - **1st-4th level:** 1d10 + void aspect modifier - **5th-8th level:** 2d10 + void aspect modifier - **9th-12th level:** 3d10 + void aspect modifier - **13th-16th level:** 4d10 + void aspect modifier - **17th-20th level:** 5d10 + void aspect modifier

Special: Void Bolt does not require ammunition and ignores cover (but not total cover).

Void Defense (Supernatural) - 1st Level

Gained at 1st level

Your connection to the void creates a protective field around you. Add your void aspect modifier as a dodge bonus to AC. This bonus applies even when flat-footed or denied your DEX bonus to AC (it represents the void's automatic protection, not your reflexes).

Example: With void aspect modifier +4, you gain +4 dodge bonus to AC at all times.

The void shields you from harm through supernatural awareness, not physical barriers.

Arcane Precision (Extraordinary) - 1st Level

Gained at 1st level

Your critical threat range with ranged Void Strike attacks increases to 19-20. **Void aspect modifier is doubled** on critical hit damage rolls.

Example at 17th level with void aspect modifier +4: - Normal hit: 6d10+4 (avg 37) - Critical hit: 12d10+8 (avg 74)

Evasion (Supernatural) - 2nd Level

Gained alongside Reactive Counterspell

Your connection to the void allows you to sense and avoid area effects with supernatural awareness. If you succeed on a Reflex save against an attack that normally deals half damage on a successful save, you instead take no damage.

Evasion can only be used if you are wearing no armor and not carrying a heavy load.

You phase through danger like smoke through a grate.

Distant Counter (Supernatural) - 3rd Level

Replaces Null Zone

Your Reactive Counterspell range increases to long range (400 ft. + 40 ft./level).

Additionally, when you successfully counter a spell at any range, you can immediately make a single Void Bolt attack against the caster as a free action if Void Strike is active. This attack costs no VP.

Tactical Use: Free damage every time you counter. Excellent VP efficiency.

Void Drift (Supernatural) - 3rd Level

Gained alongside Void Step

As an immediate action when an enemy enters a square adjacent to you or targets you with a melee attack, you may spend 1 VP to shift 5 feet in any direction. This movement does not provoke attacks of opportunity and does not count as your Void Step for the round.

At 9th level: Void Drift becomes a free action and costs 0 VP. You may use it once per round.

The void guides your movements, shifting you away from danger before it can strike.

Void Bolt Mastery (Supernatural) - 7th Level

Replaces Efficient Dispelling

Your mastery of ranged void energy improves dramatically.

Iterative Void Bolts: Your Void Bolt attacks now function as a full attack action using your BAB to determine iterative attacks. You may target the same creature multiple times with your iterative attacks.

Example at 7th level: BAB +7/+2 = 2 Void Bolt attacks as a full attack

Example at 15th level: BAB +15/+10/+5 = 3 Void Bolt attacks as a full attack

Example at 20th level: BAB +20/+15/+10/+5 = 4 Void Bolt attacks as a full attack

Multi-Target Option: As a standard action, you may spend VP (up to your void aspect modifier) to launch additional Void Bolts at different targets within range. Each additional Void Bolt costs 1 VP and uses your highest attack bonus. You must target different creatures with each of these additional bolts.

Example at 15th level (+5 void aspect): - Standard full attack: 3 iterative Void Bolts at +15/+10/+5 (costs 0 VP beyond active Void Strike) - Multi-target: Spend 5 VP = 5 additional Void Bolts, all at +15, against 5 different targets

Range: Your Void Bolt range increases to long range. (long range: 400 ft + 40 ft/level).

Bonus: You gain a +2 competence bonus on all dispel checks.

You can now unleash volleys of void energy with the precision of a master archer.

Distant Void Dispel (Supernatural) - 7th Level

Gained alongside Void Bolt Mastery

You can cast Void Dispel and target a creature or effect up to long range (400 ft. + 40 ft./level) instead of medium range.

Improved Evasion (Supernatural) - 9th Level

Gained alongside Swift Void Step

Your evasive abilities improve. You take no damage on a successful Reflex save against attacks, and only half damage on a failed save.

Example: Enemy casts *Fireball*. You make your save → take NO damage. You fail your save → take HALF damage.

Your void awareness is so refined you can phase through even failed dodges.

Spell Reflection (Supernatural) - 12th Level

Replaces Efficient Saves

When you successfully counter a targeted spell, you can spend an additional 2 VP (total 3: 1 to counter + 2 to reflect) to redirect the spell to a different valid target within range. The spell uses the original caster's DC and caster level.

Note: Base class Spell Redirection at 19th costs only +1 VP. Void Weaver gets this earlier but less efficiently.

Greater Void Strike (Supernatural) - 13th Level

Modified for Void Weaver

When you hit a creature with a ranged Void Strike attack, you can spend 2 VP as a free action to attempt to dispel all magical effects on that creature. Make a separate dispel check for each effect (1d20 + your class level + 2 [Void Bolt Mastery] vs. DC 11 + caster level).

You can only use Greater Void Strike once per round.

Cascading Void (Supernatural) - 15th Level

Enhancement to Void Step

When you use Void Step, you leave a 10-foot radius void zone at your departure point for 1 round. Enemies who enter or start their turn in the zone take your full Void Strike damage (Reflex DC 10 + $\frac{1}{2}$ level + void aspect modifier for half).

Tactical Use: Void Step away from melee enemies, leave damaging zone. They take 5d10+mod or half.

Greater Void Blast (Supernatural) - 17th Level

Gained alongside Void Clarity

Once per day, as a standard action, you can spend 5 VP to unleash a massive void blast:

Shape: 60-foot cone OR 120-foot line

Damage: Your full Void Strike damage (6d10+mod at 17th)

Save: Reflex DC 10 + $\frac{1}{2}$ level + void aspect modifier for half

Bonus: Make a free dispel check against one magical effect on each creature hit

Tactical Use: Massive AoE nuke + mass dispel in one action.

Void Perfection - Void Artillery (Supernatural) - 20th Level

Modifies Void Perfection

Your Void Strike becomes permanent (0 VP). When you counter or dispel a spell of 6th level or higher, you regain twice the spell's level in VP.

Void Artillery: As a full-round action, you can make 5 ranged Void Strike attacks at your highest BAB bonus (+20). This ability costs no VP.

Example: Full attack = 5 attacks at +20, each dealing 7d10+mod (avg 43.5 + void aspect), total ~240+ damage if all hit.

Caster Disruption: Enemies must succeed on a concentration check (DC 18 + spell level) to cast spells within 50 feet of you.

Additionally, you gain the standard Void Perfection benefits: - Your type changes to Outsider (native) - You gain darkvision 60 feet (or extend existing darkvision by 60 feet) - You no longer need to eat, drink, or breathe (but must still sleep to regain VP)

You have become death incarnate, raining void energy from impossible distances.

Document Created: December 2025

For: Fate: New Beginnings Campaign (New Derralos)

System: Pathfinder 1st Edition

Class Designers: Friday Evening & Claude

May your aspect guide you, and may your void pool never run dry!
